Arabian Carbonate

# About

Arabian Company Calcium Carbonate (ACC) established in December 2013 as a limited liability company between two strong groups - AL-SORAYAI group & Al-Romaih group.

These groups are considered to become the biggest consumers of calcium carbonate in Saudi Arabia. Additionally, in a great scale of consumption amount of calcium carbonate from these groups has reached mostly about 120,000 MT yearly.

ACC produces the finest quality Calcium Carbonate with annual capacity 280,000 Tons.

# What We Do

**Expect more & Arabian carbonate delivers.**

ACC produces and supplies customers with a wide range of calcium carbonate products in a variety of different sizes and shapes. Currently, we produce 28 different products which ranging from 2-Micron to 2 MM in size. Our products are a major component for a ide range of industries such as paper, plastic, paint & coating.

# Growth Strategy

**Together, we're transforming industries & improving qualities**

## Vision

To be the leader of Calcium Carbonate industry in the Gulf Countries.

## Mission
