About Us..

Attayer Factory Co For Plastic Medical Products is a Saudi based concern that started production in year 2012. We have obtained ISO 13485, ISO 9001, ISO 18001, ISO 14001 and are licensed by The Saudi Food And Drugs Organization.

We produce a wide range of products like sharp containers of different sizes and shapes that are designed for different applications. In addition we manufacture nursing supplies, laboratory products, pharmaceutical plastic supplies and plastic bags .

Our factory is located in the New Industrial City in Riyadh and is equipped with state of the art machinery. ISO guided quality controls and inspections run through out every step of our manufacturing processes: from purchasing of the raw materials, to production, packaging, timely deliveries and customer after sales service. We are always vigil to meet the challenges of the market and business environment with innovation, resilience and confidence in our capabilities .

Mission..

Our top priority is to contribute generously to the patient, customer and community welfare . We strive to be leaders in our own competencies and provide our customers, inside and outside the Kingdom of Saudi Arabia, with the highest quality products that not only meet but exceed client requirements .

This drive is augmented by our persistent desire to attain customer service excellence, punctual deliveries and competitive pricing .

Vision..

Inspired by the Kingdom's vision 2030, we endeavor to attain the utmost satisfaction of our clients, to diversify our production to cope with the market demand and thrive continuously to upgrade and develop the capabilities of our human resources and production facilities .

We tend to recognize the worth of all our staff by creating an atmosphere that allows for the personal satisfaction in the work increased sense of security, advancement in career opportunity and sharing in the company's overall success .

CERTIFICATES

In testimony to our serious commitment to what has been mentioned in the introduction, we have been enrolled in specific ISO programs of relevance to our operations, like environmental management, quality management systems, health and safety management systems, medical devices-quality management systems and have achieved the corresponding certifications.

We have also been duly registered in SFDA and we continuously see to it that we operate under its guidelines.
